Sister District builds power in state legislatures because states have an outsized impact on every issue we care about, from abortion to climate to education to democracy itself.

SISTER DISTRICT PROJECT

**MAGA EXTREMISTS ARE  
DISMANTLING OUR DEMOCRACY,  
ONE STATE AT A TIME.**

# THE STAKES

## The Supreme Court Case That Could Upend Democracy

*Moore v. Harper* has hit the Supreme Court calendar, and conservative Judge Michael Luttig is sounding the alarm.

**THIS IS THE CULMINATION OF OVER 50 YEARS OF REPUBLICANS STRATEGICALLY BUILDING POWER IN THE STATES.**

**And state legislatures are on the cusp of becoming massively more powerful.**

In 2023, the Supreme Court is poised to endorse the Independent State Legislature theory in *Moore v. Harper*, which would give state legislatures unchecked control over

federal elections, resulting in rampant voter suppression and election subversion, and could even allow extremists to overturn the presidential election.

# THERE IS HOPE

If we can boost turnout by less than 1% in a few carefully targeted districts, Democrats can win critical states that will decide the fate of our democracy this decade.

ALL ARE WELCOME HERE

THEY'VE BEEN HERE ALL ALONG.

While Republicans vote all the way down the ballot, Democrats do not. If we can convince just a fraction of existing Democratic voters to complete their ballots, we can win the states.

# SOLUTION

SISTER DISTRICT TAKES A DATA-DRIVEN, HANDS-ON, AND AGILE APPROACH TO CLOSE THE DOWNBALLOT GAP AND BUILD ENDURING POWER AT THE STATE LEVEL.

But closing this gap won't be easy.

It will take short-term and long-term strategies to change voter behavior.
